THIS Company offers unrivalled facilities for the Insurance of Buildings and Personal Property against fire. The advantages offered are security beyond the reach of circumstances as the real estate insured is by law bound for the assessment made to cover losses beyond the power of evasion. Every person insured is a member of the Company, and entitled to one vote. The cost of insurance does not exceed one-third as much as in Stock Companies, saying nothing of the increased security and the incomparable ease with which losses are settled. During the last five years, this Company have issued 2000 Policies, and made but three assessments at a cost to the property insured, not exceeding two mills on the dollar. Its business is principally confined to this State.

IMPORTANT TO THE PUBLIC!
THE following advertisement was published in May, 1849, in the "Boston Daily Times," and various other newspapers in the United States, by James G. Wilson, Esq., the owner of the "Woodworth Patent," shortly after I had advertised my "PATENT STATIONARY CUTTER, PLANING, TONGUEING, AND GROOVING MACHINE," throughout the United States:
"PLANING MACHINES.
"I take this method of answering the frequent inquiries, by letter and otherwise, as to my opinion upon the various notices through the papers, of the Stationary Knife Planing Machines attempted to be palmed off upon several persons ignorant of their true worth. I would state for the information of the enquirers that they will find substantially the machine now offered by several pretending inventors, described in the 10th volume of the Repertory of Arts, invented by Samuel Bentham, in the year 1791. A like machine was patented in this country by one Kugler, some sixteen years since, and another one put up by Albert Richards, of West Troy, N. Y., and abandoned about the same time. It ought to satisfy the public to know that after fifty eight years experimenting upon these machines, not one in use is of any value for the purposes contemplated.
I will furnish a Stationary Knife Machine equal to any now in use, or to any offered by the pretending inventors, at the cost of the machine and five per cent for my trouble.
JAMES G. WILSON,
May 19, 1849. Philadelphia."
I deny that any person ever saw or heard of such a machine as mine until I invented the same. Said machine was operated in the month of August, 1848, and no machine before this could do so much work, and do it as well as mine. In reply to the above advertisement, and in order that the public may be assured that I mean what I say, I will offer to pledge ONE THOUSAND DOLLARS against an equal amount from said Wilson, that ONE of my machines will plane, or plane, tongue and groove with less power, as much lumber in the same time, and do it as well, or better than TWO of the "Woodworth" machines. The trial to be made at my Steam Mill, Border St., East Boston, Mass., or at such other place as may be convenient for such a trial.
JOSEPH P. WOODBURY,
August 20, 1851.-dly East Boston, Mass.

JOHN DWIGHT & CO'S
SODA SALÆRATUS
MAY be found at the Sugar Warehouse of Goodrich & Hunter, No. 42 East water-st.
The attention of the public is called to this article as being superior to Pearlash Saleratus in its effect—giving cookery a more delicate appearance and flavor; and also as more wholesome—Soda being more congenial to the human system than Potash. It is more economical than Pearlash Saleratus—a less quantity being required to produce the same effect. The article is put up in pound papers with full directions for use.
Also may be found, John Dwight & Co.'s
Washing & Cleansing Powders,
which will be found, on trial, a very superior article, saving much labor of washing Clothes, &c. It will soften hard water. To Engineers and Machinists it is invaluable for removing grease from Machinery and other iron works leaving the iron perfectly dry, and not liable to rust.
Directions for use are printed on each package.

OFFICIAL PAPER OF THE CITY.

FROM OUR NEW YORK CORRESPONDENT.

NEW YORK, Feb 2, 1852

Winter is again upon us, and snow and blustering winds, or rather, I should say, is still upon us, for not for a quarter of a century have we had so much snow and so much cold weather, and it bids fair to last. As I look from my window now, while writing, the moon is shining upon a purely white carpet below, and the lofty trees are glittering in the clear cold light, as tho' each twig were covered with diamond sparks instead of a mere icy coating. Yet in the midst of all this inclemency emigrant ships continue to arrive with their thousands of indifferently provided passengers—weakened by insufficient nourishment—pinched by unwonted cold, without adequate clothing to resist it, and cast upon a strange shore at the most inhospitable season, without a home or relative, or friend. Happily, most happily for these unfortunates, the Commissioners of Emigration are equal to the emergency and higher praise cannot be given them, for the emergency is great. No one who has not looked into the matter a little can begin to surmise the difficulties that beset all parties. The first and greatest difficulty is, the exceeding and almost insurmountable objection of property owners to let their buildings at *any* price for the temporary reception of emigrants, until they can be gradually disposed of—and not only are the property holders backward but the whole neighborhood, where it is conjectured that the Commissioners are seeking to hire buildings, is up in arms instantly and protesting loudly against the dangers of such a colony—for it is, unhappily, too true, that with the ship loads of emigrants come always the seeds and too often the developed malignancy of ship fever, of which the spread is as much dreaded, and the contagion too, as that of Cholera. Yet with all these obstacles the Commissioners, unpaid except by the consciousness of laboring for the welfare of those who have none else on earth to labor for them, do zealously devote themselves to the work and do succeed in obtaining from time to time requisite resting places. The latest one hired is the church on the corner of Church st and Duane, built some 15 years ago for Dr Potts but of which the congregation, moving with the growth of the city, has gone up town and has since built a very much larger and handsomer edifice in the Fifth Avenue on University Place for their pastor. This Church has been fitted up with stoves, mattrasses and other necessary conveniences and holds many hundred men, women and children in at least comparative comfort. Yet these Commissioners who are of the number of our most prosperous and busy men—G C Verplanck, R B Minturn, Simeon Draper and others—are constantly assailed sometimes by the very parties they are sacrificing their own time and hazarding their own lives to serve—because they insist, as for the safety and in the interest of all they must do so—upon some sanitary rules, some effort at cleanliness, some regard to general regulations.

I do not overstate the case when I say that this is done at the hazard of life, for we had last week a most sad illustration of the reality of this danger, in the death from ship fever, contracted in the untiring discharge of his duty as Health Officer, of that excellent man and accomplished physician, Dr A SYDNEY DOANE. He is, I believe, the fifth, if not the sixth Health Officer who has fallen a victim at the Quarantine Ground to an honest fulfilment of duty. Scarcely was his death chronicled before it was followed by that of another younger, but not less devoted medical man at Randall's Island, where is the Emigrant's Hospital. In one week two physicians died at their posts, died *heroically*—who shall gainsay that?—and yet such is the set nature of human opinion that none are found to praise the self-denying courage, the high moral dignity of such a death, when thousands would have been loud-mouthed in their acclamations and hosannas if the same men had died on the red field of War seeking to destroy instead of to save, and acting in the face of men and under all the excitement of battle and its bewildering honors, instead of in the dark and noisome dens of pestilence when the eye of God only could mark the sublime self-devotion, which shrunk not from contact with obscure death, if only duty could be fulfilled and a human being possibly be saved. Honor! then, I say—high honor! to the intrepid Physician who, in his responsible calling, plants himself between the living and dead and seeks to stay the pestilence.

We are looking with some anxiety for our steamers over due. We hear to-day that the *Humboldt* from Havre, had put into Halifax to repair damages, and the Cunard steamer for this port is now seventeen days out. The weather has been very severe and much suffering must have occurred both at sea and on the coast.

By the disjointed report over the wires of the *Humboldt's* news, it would seem that however untrammelled the despotism of Louis Napoleon it is haunted by the terrors of conspiracies and that arrests were multiplying all over the land and deportations to the pestilential marshes of *French Guiana* were daily increasing. The title of Emperor which it seems to be expected would soon be assumed by the President can add nothing to his power, but it will sever the only remaining pretext which may yet seem to satisfy a portion of the French People—that he means a Republic and Universal Suffrage at last. There are those, even among ourselves, who see, or affect to see, in the *eight million votes* which were cast, or are reported to have been cast for the President a popular sanction of his usurpation, but even these must needs give up when they see that the President for a limited term covers his title and power with the name and life tenure of an Emperor.

England, it seems settled, would make to us the most full and satisfactory *amende* for the insolent act of a petty naval officer in firing at the *Prometheus*, and then I hope for a thorough good understanding with that country and such a looking to the future and to what seems to me more and more the inevitable contingency of our being called upon, England and America to resist the aggressions of combined European despotisms, as honor, duty, interest—I had almost said safety, demand.

NATIONAL PRINTING OFFICE.—Mr DOTY introduced a bill to establish a public printing office and to provide for the employment of a superintendent of public printing, which was referred to the Committee of the Whole on the state of the Union.

We find the above, among the proceedings in the House of Representatives at Washington on the 2d instant. The idea strikes us very favorably and the example, thus set as the National Capitol, is well worthy of imitation in the several States. We think both our National and State Legislatures would find their account in having printing offices of their own, disconnected from the public press, under the supervision of a practical printer, selected by themselves and responsible to them for the faithful, efficient and economical discharge of his duty. We see no other mode of escape from the perpetual broils about the public printing.

AT PAR.—To those of our delinquent subscribers, who are afraid that Mitchell's Bank will break, we will say that we will receive his bills, for debts due and for future subscriptions at par, and to some of our two year old debtors we will even allow a premium.—*Watertown Register.*

Like our Watertown neighbor, we stand ready to receive any amount of the Wisconsin Marine and Fire Insurance Company's paper in exchange for our own and rather than not have it will pay five per cent premium.

TO CORRESPONDENTS.—We have a number of communications, relating to various topics, on hand, for which we will endeavor to find room as fast as the pressure upon our columns will admit.

EDITORIAL CORRESPONDENCE OF THE SENTINEL.

MADISON, Feb 7

Mr Bowen introduced in Senate yesterday a resolution of instruction to the judiciary committee to inquire into the propriety of [illegible] the law exempting homesteads of deceased persons to their widows and minor children so as to provide for the method of setting them off and so as to define their several interests therein.

Mr Conkey introduced some days since in Senate a bill providing for the form in which tax deeds shall be made out and making them conclusive evidence of title. I am glad that this subject is receiving so much and so careful attention from the Judiciary Committees of both Houses and the prospect is that a law will be framed which will have the effect of quieting the troubles which have beset the state resulting from the hitherto loose legislation upon the subject. Such must be the wish of every one who hopes for the present and future prosperity of Wisconsin. There is a determination evinced by members to make a safe and sure and just law, and it is to be hoped that they will succeed.

The select committee on Banks is industriously at work, and will probably be ready to report about the middle of next week. The task of drafting a law which shall be in all respects safe for billholders, and secure to them the last dollar of circulation and which shall yet be liberal enough to invite capitalists hither is no easy one. Yet the committee earnestly desires to do it and I do not doubt the members of both Houses take hold of the question with a just idea of what is due to their constituents and to the interests of the state at large, it will be done. I think that the rate of interest allowed will be [illegible] per cent being more than [illegible] the highest rates [illegible] actions such a rate [illegible] would [illegible] law be well framed in other respects [illegible] bondholders. There is one other vexed question connected with this subject [illegible] important, to which I need only allude here. It must be settled before any Banking system however favorable, can go into operation with any hope of success, to those engaged in it or of real permanent benefit to the people. With prudence and patience, Wisconsin will [illegible] as she has so many others.

The question of the ratio of the apportionment for the guidance of the Committee was under consideration [illegible] the orders of business had been gone through and before the morning hour expired. It [illegible] up in the shape of [illegible] Mr Sholes [illegible] recting them to make 100 the number of constituents for Assembly [illegible] providing that every organized county shall have a member without regard to population. Mr Lewis moved to amend by making the number of members 70, which would amount to [illegible] nearly. Mr Parlow moved to amend by making the number 90. The ayes and noes upon this proposition were called, and showed but [illegible] for it—Messrs Barlow, Cate, Fellows, Utley and Shafer. A motion to make the number 75 was also submitted, and the ayes and noes resulted 23 to 30. No further vote was taken, but the remainder of the time was spent in debating the general question, several points of interest arising aside from that of the ratio. One is as to the right of this Legislature to make any apportionment at all the Constitution requiring it to be done at the first session after the enumeration. It was intimated that a semi-judicial opinion had been expressed by the Supreme Court, that such action on the part of the succeeding Legislature would be constitutional, but no discussion of this point at large was entered into.

Another point was as to the proviso in Mr Sholes' resolution providing that each organized county shall have at least one member. Messrs Hoyt, Lewis and Cate expressed themselves in favor of the project and expediency of such a provision, while Messrs Hackett [illegible] and Bothin took the ground that such a provision would be unconstitutional inasmuch as, by the Constitution, population and not territory is made the basis of representation. Were such an arrangement constitutional there would be some 11 or 15 counties entitled each to a member, their aggregate population by the census being less than 9000. On the present basis of 66 members to the Assembly this would leave the balance of the State to contribute nearly 6000 inhabitants to a member. But there is no need of arguing a question [illegible] for the Constitution stands directly in the way of it.

Many of the members of both Houses are in favor of an increase of the Senate, that body being rather too small a corporation in its present state. A ratio of 75 members in the Assembly would give a Senate of 25 members. Such a number for the House would [illegible] is to need any increase in the size of the Assembly Hall and seems to me a compromise between conflicting opinions well [illegible] in the days of compromises.

I have been waiting to see [illegible] Committee to whom were referred the [illegible] documents showing the amount obtained and disposing of the $6000 by Ex Gov Dewey. It does seem that this matter demands a close examination and such an exposition of opinion (if nothing more) by the Legislature as will for ever put a period to such [illegible] violations of law. In addition to this resolution of enquiry as to the whereabouts of a [illegible] volumes of statutes which had accumulated in the [illegible] tive Chamber since Gov Dodge's time being sent hither by the Governors of [illegible] which have been appropriated by Ex-Gov Dewey and taken away by him would not be amiss. One of the sales in that office is [illegible] I don't believe in covering up the [illegible] They look bad enough when only half [illegible] They may look better, or worse [illegible] examined, and they *should* be examined.

The Washington County seat question was to all appearances, finally settled [illegible] by the passage of the compromise bill reported by the delegation. *Io Triumphe!* [illegible] betting man I'd venture a [illegible] that the next Legislature has [illegible] W H W

The Railroad—Intention at Milwaukee.

From communications recently published in the Milwaukee papers it appears that the intention of the Milwaukee and Mississippi Railroad Company, is, not to run to the Mississippi river at all, but to reach the Wisconsin at the nearest practicable point from Madison, which is Prairie du Sac, distant some twenty five miles from Madison and eighty or ninety by the course of the river from its mouth. Here they calculate to stick their last stake for the present at least and build their Western depot. For reasons best known to themselves (but which we can guess at) this fact has been kept sedulously concealed from the West and the idea fostered among us that they were determined not to check the westward progress of the Iron Horse until he had gained the banks of the Mississippi.—*Potosi Republican.*

Such is the opening of an editorial article in the last Potosi *Republican*, severely reflecting upon the Milwaukee and Mississippi Railroad Company for an alleged breach of faith towards the People of Grant County. We can assure our friend of the *Republican* that the supposed fact upon which he bases this attack is without foundation. The *Charter* of the Milwaukee and Mississippi R. R. Company requires them to locate their Western terminus within the limits of Grant County. They cannot, if they would disregard that requirement, without an amendment to their charter, nor would they, if they could. No such intention as the *Republican* imputes to the Company has been entertained by them, nor do they calculate "to stick their stake" and come to a dead halt at Prairie du Sac or any other point this side of the Father of Waters. The *Republican* and the people of Grant County may rest assured that the citizens of Milwaukee, one and all, and the Directors of the M and M Rail Road Company, desire nothing so much as the speedy extension of the road to the Mississippi and if our Western friends will *pull* as hard as we shall *push*, to effect this devoutly wished for consummation, the Iron Horse will be snorting on the banks of the Great River in two years at farthest.

Milwaukee Mutual Fire Insurance Company.

The sixth annual report of the Milwaukee Mutual Fire Insurance Company, for the year ending December 31st 1851 has just been published.—It exhibits an increase, during the year, in the amount of property at risk and policies issued and a decrease in the premium notes—these last having been reduced *three-fourths* from what they formerly were, and the *cash* premiums increased. We compile the following statistics from the report:

SURPRISE [illegible]—The *Free Democrat*, for want of a better answer, saw fit to ascribe our remarks on the subject of the *quo warranto* to the alleged fact that the *Sentinel* was the organ of the Jenny Lind Club, a political junto in this city, which had controlled past elections and was beginning to control future ones. We thought it unnecessary to notice this weak invention further than to brand it as *false* in every single particular. In yesterday's *Free Democrat*, we are favored with a second, but greatly reduced edition of the same Munchausenisms. The *Sentinel* and "the Jenny Lind Club" are again mixed with gout in [illegible] for the People's ticket, the City Printing, and Judge Hubbell, with "playing a [illegible] game for the spoils" and with the design of playing it over again this Spring. We [illegible] the *Free Democrat* [illegible] there is no denying these facts." There is no [illegible] about them. The second series is as purely fabulous as the first.

AFFRAY AT OSHKOSH.—On Tuesday of last week William Patterson, a shoemaker residing at Oshkosh, taking offence at a party of boys who were [illegible] some dogs that he kept about his premises, caught up a double-barrel'd gun and fired twice upon the crowd, wounding four of the children quite severely. This brutal act raised a great excitement, Patterson was arrested and put in jail and a mob collecting tore down his house and killed his dogs. The firing upon the children was a dastardly outrage and deserving of the severest punishment, but the revenge sought by the mob was almost as brutal and equally reprehensible.

IN CIRCUIT COURT.—Judge HUBBELL Presiding—Tuesday, Feb 9. The following cases occupied the Court.

President Directors & Co Bank of Michigan vs John Griffith. Petition of absent defendant to open decree, argued and submitted. F RANDALL for Petitioner, J S Brown for Comp.

Albert G [illegible] vs N S Donaldson and others. Motion for security on continuing injunction [illegible] Court could hear motion for dissolution. A D Smith and Doran & Smith for Complainant. Finch and Emmons for Defendant.

[illegible] vs Jos M Sprague—Rule for attachment vs the Sheriff of Marathon County. Emmons and Van Dyke for Plaintiff.

Strahan and Sexton vs [illegible] et al. Jury sworn [illegible] Brown & Ogden for Plaintiff. F G Ryan for Defendant.

George S Conant et al vs H Fitch. Judgment entered for $143 11.

ANOTHER REBUKE.—Thos D'Arcy McGee, delegate from Massachusetts in behalf of the Irish exiles, has addressed a letter to the New York *Herald* to counteract the misrepresentations put forth in it on to the President and Mr Webster. He says:

It is the earnest desire of the friends of the exiles in Philadelphia, Baltimore and Washington that their case should be left in the hands of the Government, believing as they do that both the President and the distinguished Secretary of State (to whose courtesy we are also much indebted) will leave no proper means unemployed to gratify the wishes of so many American citizens as are now interested in this matter."

THE NEW JUDICIAL CIRCUIT.—A bill has been introduced into the Legislature for the formation of the Seventh Judicial District. It includes the counties of Dane, Columbia, Portage, Sauk and Marathon.—*Wisconsin.*

We have already one District too many, if we are not to have a separate Supreme Court and as that question cannot properly come up till the next session of the Legislature we trust that our present system will be left undisturbed till then.

☞ Our subscribers in the 1st Ward, between Mason and Biddle Streets, will please notify us of any irregularity in the receipt of their paper.

YOUNG MEN'S ASSOCIATION.—The Debating Society, on Monday evening was well attended and the proceedings interesting. The subject of our Exemption Laws was well discussed by Messrs RICHARDS, AUSTIN, MENZIES, SMITH, and others.—The question for next week is the Maine Liquor Law, and the meeting will take place on Tuesday evening instead of Monday, in consequence of the Complimentary Concert announced for Monday evening.

SOMETHING NEW IN THE U S SENATE.—Mr Benjamin, the new Whig Senator from Louisiana, is a descendant of Israel and an Israelite by his practice and profession, observing the seventh day as Sunday, and rigidly keeping the Passover.—*Commercial.*

This is not particularly "new." Mr Levy, U S Senator from Florida several years since, was one of the "chosen people."

ICE ROTTING.—The mild weather of the past fortnight has weakened the ice in the river so that in some places it is nearly worn through and the crossing risky. An Irishman broke through yesterday while crossing near the foot of Michigan street, but escaped with a ducking.

AUCTION SALE.—A large Auction Sale of Dry Goods comes off, this morning at 10 o'clock, at RUSSELL'S New York Auction Store, corner of East Water and Wisconsin Streets. A great opportunity is offered for good bargains.

☞ We hear by Telegraph that the ice moved out of Chicago river yesterday. It is clear we shall probably have a boat from there next week.

VALENTINES.—BIRD is already in the field with a full supply of Valentines. There is also a choice assortment of the dangerous missives at HALE'S. It is generally understood, we suppose, that the *ladies* send the Valentines this year.

TEMPERANCE MEETING.—A meeting of the friends of the Maine Liquor Law is to be held at Young's Block to-morrow evening and will be addressed by Dr MACNISH and Mr S D HASTINGS.

☞ If the present mild weather continues, we may look for a steamboat from Chicago before the close of the month.

☞ The alarm of fire about 6 o'clock last evening arose from the burning of the Marsh which lit up the southern horizon brilliantly.

PARDON OF KIDNAPPER.—George Alberti, convicted of Kidnapping and sentenced to ten years' imprisonment in the state prison, has been pardoned by Governor Bigler.

CALL for a COMPLIMENTARY FESTIVAL, FOR THE Milwaukee Musical & Sacred Music Societies.

To Messrs Jacob Maller and J F Goodall—Presidents:

GENTLEMEN.—We are desirous of testifying in some appropriate manner our sense of the very great obligations that we in common with our fellow-citizens generally are under, to the two Musical Societies over which you preside, for the valuable assistance they have repeatedly rendered on occasions of public taste and public charity. The services of both the Milwaukee Musical and Sacred Music Societies have been freely tendered in aid of the Fire Department, the Orphan Asylum, the Ladies Benevolent Society and other useful and benevolent objects, and we cannot doubt that the public who have witnessed these liberal acts will gladly embrace the opportunity to recognize and repay them. At the same time we desire to give these societies some substantial token of the high estimation in which they are held and of the warm and active interest which our citizens take in their success. You will greatly oblige us, therefore, Gentlemen, and further the opportunity we seek, if you will fix upon some evening for a joint Complimentary Concert for the benefit of these sister-societies.

We remain, Gentlemen
Yours very respectfully

Excitement in New York.

New York Feb 2

There is considerable excitement in relation to Mrs Forrest's debut this evening and a riot is apprehended. A special police force has been detailed at the Theatre, and the 5th regiment of Artillery ordered to hold itself in readiness.

Quite a large crowd has been assembled about the Theatre since 6 o'clock. It is however hoped that the precautions taken will prevent any serious outbreak.

7½ p m

The Regiment is now parading in front of the Theatre.

A despatch of the 3rd instant states that the precautions used prevented any outbreak and that the *debut* passed off quietly and successfully.

An Act

Regulating the minimum price of certain School Lands.

The People of the State of Wisconsin represented in Senate and Assembly do enact as follows:

SEC 1. The minimum price of all lands already selected or hereafter to be selected, as part of the five hundred thousand acres of land donated by Congress to this State, shall be one dollar and twenty-five cents per acre, and none of said lands shall hereafter be sold at a less sum than such minimum price, and this act shall take effect and be in force from and after its passage.

Approved January 31, 1852.

BURNED TO DEATH.—A most afflicting scene occurred at the poor house in this county on Thursday last. A small building occupied by an idiot girl a few rods from the house, caught fire by some unknown cause about 9 o'clock in the morning. When the fire was discovered it was too late to save the suffering inmate when her body was taken from the fire one arm and leg was burned off. Her name was Louisa Hungerford, aged 16 years. We understand her father lives in the south part of the Country.—*Hillsdale Standard.*

STE MARIE SHIP CANAL.—There are two propositions before Congress to construct the much needed canal around the Sault of Ste Marie.—In the House Mr Conger of Michigan, formerly a resident of Cleveland, has introduced a bill which appropriates $300,000 in money for the construction of this work. In the Senate Mr Felch of Michigan has introduced a bill for the same purpose, which appropriates public lands as the means of constructing the work. We trust the bill in the House will become a law.

The Cleveland *Herald* published the following from Sault Ste Marie under the date of January 4th:

The weather here is fine. The steamer Baltimore is fairly hauled out and on her way across the Portage. Yesterday they took hold of the propeller Peninsula. These fine steamers are both the property of Col McKnight and will take their place in the Old Lake Superior Line at the opening of navigation the coming Spring. We expect the World and the rest of Mankind here next summer, and intend to be prepared for them.

THE MARKETS.

OFFICE OF THE DAILY SENTINEL,
MILWAUKEE, February 11, 1852.

Increased receipts yesterday. Market quiet and firm at last quotations. Some prime Barley sold at 40 cents. Pork is steadily demanded at $4 25 for prime heavy hogs. Weather continues very fine. Roads are getting cut up.

DETROIT, Feb 6.—There has been a little excitement in the produce market the past week and prices have advanced. Sales have been made of flour at $3 37@3 40 on board and a lot of 500 bbls Detroit City Mills even to this mark. We quote flour from wagons at $3 15@ [illegible] in store free on board [illegible]. Wheat 68c. Corn 40@42c. Oats 28c. Barley $1 25@1 00. Dressed hogs $4 25@4 75. Beef, on foot $4 50@5 50.

To the Voters of Milwaukee.

THE name of TIMOTHY O'BRIEN is presented to the voters of Milwaukee as a candidate for City Marshal. Mr O'Brien has had two years experience as a Peace and [illegible] Officer. His services in the time of the Cholera and the pandemics in our midst, were of the most valuable [illegible] character. He is one of our old inhabitants familiar with the wants and duties of the office and we cheerfully and confidently commend him to the favor and suffrages of the voters of Milwaukee.

Dr GEO B GREEN, Windsor Vt,

Dear Doctor:—I intended before leaving Washington City, last spring, to say to you in black and white, as I have frequently done, viva voce, how highly I esteemed your Oxygenated Bitters, and but I have no doubt but they will act as a certain, speedy, and agreeable cure of Dyspepsia, in any case, it matters not how obstinate. Your bitters acted as a charm with my friends, Hon A C Dodge, M L Martin, H D Lowe, and others as they did with myself.

☞ IN CONSUMPTIVE SYMPTOMS, Procrastination is the thief of time,' in an awful sense as it shortens existence, and hurries the patient from time to eternity.

Thousands are dying whose lives might be saved by the timely use of WISTAR'S BALSAM OF WILD CHERRY. A few weeks a few days may make a vital difference in the progress of CONSUMPTIVE SYMPTOMS.

The chances of success increase greatly with the earliness of treatment. Although in cases seemingly desperate, Wistar's Balsam has performed cures that are seemingly miraculous still it is advisable to take the Balsam on the appearance of the first symptoms.

CONSUMPTION, of all diseases is the one that should receive early treatment. Every hour of delay may make the case more difficult. In the war between Disease and Nature, the sooner we assist Nature, the more certainly will she win the victory. If we wait until Disease has broken the constitution, our aid may come too late for service.

OFFICIAL PAPER OF THE CITY.

FROM OUR NEW YORK CORRESPONDENT.

NEW YORK, Feb. 2, 1852.

Winter is again upon us, and snow and blustering winds; or rather, I should say, is still upon us, for not for a quarter of a century have we had so much snow and so much cold weather, and it bids fair to last. As I look from my window now, while writing, the moon is shining upon a purely white carpet below, and the lofty trees are glittering in the clear, cold light, as tho' each twig were covered with diamond sparks, instead of a mere icy coating. Yet in the midst of all this inclemency emigrant ships continue to arrive with their thousands of indifferently provided passengers—weakened by insufficient nourishment, pinched by unwonted cold, without adequate clothing to resist it, and cast upon a strange shore at the most inhospitable season, without a home, or relative, or friend. Happily, most happily for these unfortunates, the Commissioners of emigration are equal to the emergency, and higher praise cannot be given them, for the emergency *is* great. No one who has not looked into the matter a little can begin to surmise the difficulties that beset all parties. The first and greatest difficulty is, the exceeding and almost insurmountable objection of property owners to let their buildings at *any* price for the temporary reception of emigrants, until they can be gradually disposed of; and not only are the property holders backward, but the whole neighborhood, where it is conjectured that the Commissioners are seeking to hire buildings, is up in arms instantly and protesting loudly against the dangers of such a colony—for it is, unhappily, too true, that with the ship loads of emigants come always the seeds and too often the developed malignancy of ship fever, of which the spread is as much dreaded, and the contagion too, as that of Cholera. Yet with all these obstacles the Commissioners, unpaid except by the consciousness of laboring for the welfare of those who have none else on earth to labor for them, do zealously devote themselves to the work and do succeed in obtaining, from time to time, requisite resting places. The latest one hired is the church on the corner of Church St. and Duane, built some 15 years ago for Dr. Potts, but of which the congregation, moving with the growth of the city, has gone up town and has since built a very much larger and handsomer edifice in the Fifth Avenue on University Place for their pastor. This Church has been fitted up with stoves, mattrasses and other necessary conveniences, and holds many hundred men, women and children in at least comparative comfort. Yet these Commissioners, who are of the number of our most prosperous and busy men—G. C. Verplanck, R. B. Minturn, Simeon Draper and others—are constantly assailed, sometimes by the very parties they are sacrificing their own time and hazarding their own lives to serve—because they insist, as for the safety and in the interest of all they must do so—upon some sanitary rules, some effort at cleanliness, some regard to general regulations.

I do not overstate the case when I say that this is done at the hazard of life, for we had last week a most sad illustration of the reality of this danger, in the death from ship fever, contracted in the untiring discharge of his duty as Health Officer, of that excellent man and accomplished physician, DR. A. SYDNEY DOANE. He is, I believe, the fifth, if not the sixth Health Officer who has fallen a victim at the Quartine Ground to an honest fulfilment of duty. Scarcely was his death chronicled before it was followed by that of another younger, but not less devoted medical man at Randall's Island, where is the Emigrant's Hospital. In one week two physicians died at their posts, died *heroically*—who shall gainsay that?—and yet such is the set nature of human opinion that none are found to praise the self-denying courage, the high moral dignity of such a death, when thousands would have been loud-mouthed in their acclamations and hosannas if the same men had died on the red field of War, seeking to destroy instead of to save, and acting in the face of men and under all the excitement of battle and its bewildering horrors, instead of in the dark and noisome dens of pestilence, when the eye of God only could mark the sublime self-devotion, which shrunk not from contact with obscure death, if only duty could be fulfilled and a human being possibly be saved. Honor! then, I say—high honor! to the intrepid Physician who, in his responsible calling, plants himself between the living and dead and seeks to stay the pestilence.

We are looking with some anxiety for our steamers over due. We hear to-day that the *Humboldt* from Havre, had put into Halifax, to repair damages, and the Cunard steamer, for this port is now seventeen days out. The weather has been very severe and much suffering must have occurred both at sea and on the coast.

By the disjointed report over the wires of the *Humboldt's* news, it would seem that however untrammelled the despotism of Louis Napoleon, it is haunted by the terrors of conspiracies, and that arrests were multiplying all over the land, and deportations to the pestilential marshes of *French Guiana* were daily increasing. The title of Emperor which it seems to be expected would soon be assumed by the President can add nothing to his power, but it will sever the only remaining pretext which may yet seem to satisfy a portion of the French People—that he means a Republic and Universal Suffrage at last. There are those, even among ourselves, who see, or affect to see, in the *eight million votes*, which were cast, or are reported to have been cast for the President, a popular sanction of his usurpation, but even these must needs give up when they see that the President for a limited term covers his title and power with the name and life tenure of an Emperor.

England, it seems settled, would make to us the most full and satisfactory *amende* for the insolent act of a petty naval officer in firing at the *Prometheus*, and then I hope for a thorough good understanding with that country and such a looking to the future and to what seems to me more and more the inevitable contingency of our being called upon, England and America, to resist the aggressions of combined European despotisms, as honor, duty, interest—I had almost said safety, demand.

NATIONAL PRINTING OFFICE.—Mr. Doty introduced a bill to establish a public printing office, and to provide for the employment of a superintendent of public printing: which was referred to the Committee of the Whole on the state of the Union.

We find the above, among the proceedings in the House of Representatives at Washington on the 2d instant. The idea strikes us very favorably, and the example, thus set as the National Capital, is well worthy of imitation in the several States. We think both our National and State Legislatures would find their account in having printing offices of their own, disconnected from the public press, under the supervision of a practical printer, selected by themselves, and responsible to them for the faithful, efficient and economical discharge of his duty. We see no other mode of escape from the perpetual broils about the public printing.

AT PAR.—To those of our delinquent subscribers, who are afraid that Mitchell's Bank will break, we will say that we will receive his bills, for debts due and for future subscriptions, at par, and to some of our two year old debtors we will even allow a premium.—*Watertown Register.*

Like our Watertown neighbor, we stand ready to receive any amount of the Wisconsin Marine and Fire Insurance Company's paper in exchange for our own and rather than not have it will pay five per cent premium.

TO CORRESPONDENTS.—We have a number of communications, relating to various topics, on hand, for which we will endeavor to find room as fast as the pressure upon our columns will admit.

EDITORIAL CORRESPONDENCE OF THE SENTINEL.

MADISON, Feb. 7.

Mr. Bowen introduced in Senate yesterday a resolution of instruction to the judiciary committee to inquire into the propriety of amending the law exempting homesteads of deceased persons to their widows and minor children, so as to provide for the method of setting them off, and so as to define their several interests therein.

Mr. Conkey introduced some days since in Senate a bill providing for the form in which tax deeds shall be made out, and making them conclusive evidence of title. I am glad that this subject is receiving so much, and so careful attention from the Judiciary Committees of both Houses, and the prospect is that a law will be framed which will have the effect of quieting the troubles which have beset the state, resulting from the hitherto loose legislation upon the subject. Such must be the wish of every one who hopes for the present and future prosperity of Wisconsin. There is a determination evinced by members to make a safe and sure and just law, and it is to be hoped that they will succeed.

The select committee on Banks is industriously at work, and will probably be ready to report about the middle of next week. The task of drafting a law which shall be in all respects safe for billholders, and secure to them the last dollar of circulation, and which shall yet be liberal enough to invite capitalists hither, is no easy one. Yet the committee earnestly desires to effect it, and if (as I do not doubt) the members of both Houses take hold of the question with a just idea of what is due to their constituents and to the interests of the state at large, it will be done. I think that the rate of interest allowed will be ten per cent, being more than the lowest, and less than the highest rates allowed by law in other transactions. Such a rate, as a basis, would, if the law be well framed in other respects, invite capital to our borders. There is one other vexed question, connected with this subject, troublesome as it is important, to which I need only allude here. It must be settled, before any Banking system, however favorable, can go into operation with any hope of success, to those engaged in it, or of real, permanent benefit to the people. With prudence and patience, Wisconsin will pass *this* crisis safely, as she has so many others.

The question of the ratio of the apportionment for the guidance of the Committee, was under consideration for some time this morning, after the orders of business had been gone through, and before the morning hour expired. It came up in the shape of a resolution by Mr. Sholes, directing them to make 4500 the number of constituents for Assemblymen, and providing that every organized county shall have a member, without regard to population. Mr. Lewis moved to amend by making the number of members 70, which would amount to the same thing, nearly. Mr. Barlow moved to amend by making the number 90. The ayes and noes upon this proposition were called, and showed but 5 in favor—Messrs Barlow, Cate, Fellows, Utley and Shafter. A motion to make the number 75 was also submitted, and the ayes and noes resulted 23 to 30. No further vote was taken, but the remainder of the time was spent in debating the general question, several points of interest arising aside from that of the ratio. One is, as to the right of the Legislature to make any apportionment at all—the Constitution requiring it to be done at the first session after the enumeration. It was intimated that a semi-judicial opinion had been expressed by the Supreme Court, that such action on the part of the succeeding Legislature *would* be constitutional, but no discussion of this point at large was entered into.

Another point was, as to the proviso in Mr. Sholes' resolution providing that each organized county shall have at least one member. Messrs. Hoyt, Lewis and Cate expressed themselves in favor of the propriety and expediency of such a provision, while Messrs. Hackett, Barber, Richardson and Bottin took the ground that such a provision would be unconstitutional, inasmuch as, by the Constitution, population, and not territory, is made the basis of representation. *Were* such an arrangement constitutional, there would be some 14 or 15 counties entitled each to a member, their aggregate population by the census being less than 9000! On the present basis of 66 members to the Assembly, this would leave the balance of the State to a ratio of nearly 6000 inhabitants to a member. But there is no need of arguing a question like this, for the constitution stands directly in the way of its sucess.

Many of the members of both Houses are in favor of an increase of the Senate, that body being rather too close a corporation in its present state. A ratio of 75 members in the Assembly, would give a Senate of 25 members. Such a number for the House would not be such as to need any increase in the size of the Assembly Hall, and seems to me a compromise between conflicting opinions, well worthy of attention, in these days of compromises.

I have been waiting to see some report from the Committee to whom were referred the interesting documents showing the manner of obtaining and disposing of the $8000 by Ex-Gov. Dewey. It does seem that this matter deserves a close examination, and such an expression of opinion (if nothing more) by the Legislature, as will forever put a period to such barefaced violations of law. In addition to this, a resolution of enquiry as to the whereabouts of a large number of volumes of statutes which had accumulated in the Executive Chamber since Gov. Dodge's time, being sent hither by the Governors of other States, and which have been appropriated by Ex-Gov. Dewey, and taken away by him, would not be improper.—One of the safes in that office is also missing. I don't believe in covering up these things. They look bad enough, when only hinted at. They may look better, or worse, by being more closely examined, and they *should* be examined.

The Washington County seat question was, to all appearances, finally settled this morning by the passage of the compromise bill reported by the delegation. *Io Triumphe!* But, were I a betting man, I'd venture a moderate sum that the next Legislature has a taste of its quality.

The Railroad---Intention of Milwaukee.

From communications, recently published in the Milwaukee papers, it appears that the intention of the Milwaukee and Mississippi Railroad Company, is, not to run to the Mississippi river at all, but to reach the Wisconsin at the nearest practicable point from Madison, which is Prairie du Sac, distant some twenty-five miles from Madison and eighty or ninety by the course of the river, from its mouth. Here they calculate to stick their last stake, for the present, at least, and build their Western depot. For reasons best known to themselves (but which we can guess at,) this fact has been kept sedulously concealed from the West, and the idea fostered among us that they were determined not to check the westward progress of the Iron Hose, until he had gained the banks of the Mississippi.—*Potosi Republican.*

Such is the opening of an editorial article in the last Potosi *Republican*, severely reflecting upon the Milwaukee and Mississippi Railroad Company for an alleged breach of faith towards the People of Grant County. We can assure our friend of the *Republican* that the supposed fact upon which he bases this attack is without foundation. The *Charter* of the Milwaukee and Mississippi R. R. Company requires them to locate their Western terminus within the limits of Grant County. They cannot, if they would, disregard that requirement, without an amendment to their charter; nor would they, if they could. No such "intention," as the *Republican* imputes to the Company, has been entertained by them; nor do they calculate "to stick their stake" and come to a dead halt, at Prairie du Sac, or any other point, this side of the Father of Waters. The *Republican* and the people of Grant County may rest assured that the citizens of Milwaukee, one and all, and the Directors of the M. and M. Rail Road Company, desire nothing so much as the speedy extension of the road to the Mississippi, and if our Western friends will *pull* as hard as we shall *push*, to effect this devoutly wished for consummation, the Iron Horse will be snorting on the banks of the Great River in two years at farthest.

Milwaukee Mutual Fire Insurance Company.

The sixth annual report of the Milwaukee Mutual Fire Insurance Company, for the year ending December 31st, 1851, has just been published.—It exhibits an increase, during the year, in the amount of property at risk and policies issued, and a decrease in the premiums; these last having been reduced *three-fourths* from what they formerly were, and the *cash* premiums increased. We compile the following statistics from the report:

Property at risk, Dec. 31,	1850,	$1,499,985

The following table shows the amount of Cash premiums received, assessments realized, losses and expenses paid during the year:

The Directors, after a full investigation into the affairs of the Company, certify that it is in a healthy and prosperous condition, and cheerfully recommend it to the public as entitled to rank with the best companies in the Union. The names of the Officers and Directors, which we subjoin, give weight and value to this recommendation:

TAPPING OFF.—The *Free Democrat*, for want of a better answer, saw fit to pour our remarks on the subject of the *quo warranto* to the alleged fact that "the *Sentinel* was the organ of the Jenny Lind Club, a political junto in this city" &c., which had controlled past elections and was figuring to control future ones. We thought it unnecessary to notice this "invention" further than to brand it as *false* in every single particular. In yesterday's *Free Democrat*, we are favored with a second, but greatly reduced edition of the same Munchausenism. The *Sentinel* and "the Jenny Lind Club" are again taxed with "going in lovingly for the People's ticket, the City Printing, and Judge Hubbell," with playing "a fair game for the spoils," and with the design of playing it over this Spring, &c. &c., and the *Free Democrat* takes it that there is no denying these facts. There is no "fact" about them. This second series is as purely fabulous as the first.

AFFRAY AT OSHKOSH.—On Tuesday of last week William Patterson, a shoemaker, residing at Oshkosh, taking offence at a party of boys who were snow-balling some dogs that were about his premises, caught up a double-barrelled gun, and fired twice upon the crowd, wounding four of the children quite severely. This act raised a great excitement; Patterson was arrested and put in jail, and a mob collecting tore down his house and killed his dogs. The firing upon the children was a dastardly outrage and deserving of the severest punishment, but the revenge sought by the mob was almost as brutal and equally reprehensible.

IN CIRCUIT COURT.—Judge HUBBELL Presiding—Tuesday, Feb. 9th. The following cases occupied the Court.

President, Directors & Co Bank of Michigan vs. John Griffith. Petition of absent defendant to open decree, argued and submitted. F. RANDALL, for Petitioner; J. S. BROWN, for Comp.

Albert C. True, vs. N. S. Donaldson and others. Motion for security on continuing injunction until Court could hear motion for dissolution. A. D. SMITH and DORAN & SMITH for Complainant, JAMES and EMMONS for Defendants.

Westminster Abbey et al. vs. Jos. M. Sprague.—Rule for attachment vs. the Sheriff of Manitowoc County. EMMONS and VAN DYKE, for Plaintiff.

Strachan and Scott vs. Edgell et al. Jury sworn and case opened. BROWN & OGDEN, for Plaintiffs E. G. RYAN, for Defendant.

George S. Conover et al. vs. H. Fitches. Judgment entered for $143,11.

ANOTHER REBUKE.—Thos. D'Arcy McGee, delegate from Massachusetts in behalf of the Irish exiles, has addressed a note to the New York *Herald*, to counteract the misrepresentations put forth in relation to the President and Mr. WEBSTER. He says:

"It is the earnest desire of the friends of the exiles in Philadelphia, Baltimore, and Washington, that their case should be left in the hands of the Government, believing, as they do, that both the President and the distinguished Secretary of State (to whose courtesy we are also much indebted) will leave no proper means unemployed to gratify the wishes of so many American citizens as are now interested in this matter."

THE NEW JUDICIAL CIRCUIT.—A bill has been introduced into the Legislature, for the formation of the Seventh Judicial District. It includes the counties of Dane, Columbia, Portage, Sauk and Marathon.—*Wisconsin.*

We have already one District too many, if we are to have a separate Supreme Court, and as that question cannot properly come up till the next session of the Legislature, we trust that our present system will be left undisturbed till then.

☞ Our subscribers in the 1st Ward, between Mason and Biddle Streets, will please notify us of any irregularity in the receipt of their paper.

YOUNG MEN'S ASSOCIATION.—The Debating Society, on Monday evening, was well attended and the proceedings interesting. The subject of our Exemption Laws was well discussed by Messrs. RICHARDS, AUSTIN, MENZIES, SMITH, and others.—The question for next week is the Maine Liquor Law, and the meeting will take place on Tuesday evening instead of Monday, in consequence of the Complimentary Concert announced for Monday evening.

SOMETHING NEW IN THE U. S. SENATE.—Mr. Benjamin, the new Whig Senator from Louisiana, is a descendant of Israel, and an Israelite by his practice and profession observing the seventh day as Sunday, and rigidly keeping the Passover.—*Commercial.*

This is not particularly "new." Mr. LEVY, U. S. Senator from Florida, several years since, was one of the "chosen people."

ICE ROTTING.—The mild weather of the past fortnight has weakened the ice in the river so that, in some places, it is nearly worn through and the crossing risky. An Irishman broke thro', yesterday, while crossing near the foot of Michigan street, but escaped with a ducking.

AUCTION SALE.—A large Auction Sale of Dry Goods comes off, this morning, at 10 o'clock, in RUSSELL'S New York Auction Store, corner of East Water and Wisconsin Streets. A great opportunity is offered for good bargains.

☞ We hear by Telegraph that the ice moved out of Chicago river, yesterday. If it is clear, we shall probably have a boat from there next week.

VALENTINES.—BIRD is already in the field with a full supply of Valentines. There is also a choice assortment of these dangerous missives at HULL'S. It is generally understood, we suppose, that the *ladies* send the Valentines this year.

TEMPERANCE MEETING.—A meeting of the friends of the Maine Liquor Law is to be held at Young's Block to-morrow evening, and will be addressed by Dr. MACNISH and Mr. S. D. HASTINGS.

☞ If the present mild weather continues, we may look for a steamboat from Chicago before the close of the month.

☞ The alarm of fire about 6 o'clock last evening arose from the burning of the Marsh, which lit up the southern horizon brilliantly.

Philadelphia, Feb. 2.

PARDON OF KIDNAPPER.—George Alberti, convicted of Kidnapping, and sentenced to ten years' imprisonment in the state prison, has been pardoned by Governor Bigler.

CALL for a COMPLIMENTARY FESTIVAL, FOR THE Milwaukee Musical & Sacred Music Societies.

To Messrs. Jacob Mahler and J. E. Goodall—Presidents:

GENTLEMEN—We are desirous of testifying, in some appropriate manner, our sense of the very great obligations that we, in common with our fellow-citizens generally, are under, to the two Musical Societies over which you preside, for the valuable assistance they have repeatedly rendered on occasions of public interest and public charity. The services of both the Milwaukee Musical and Sacred Music Societies have been freely rendered in aid of the Fire Department, the Orphan Asylum, the Ladies Benevolent Society, and other useful and benevolent objects, and we cannot doubt that the public, who have witnessed these liberal acts, will gladly embrace the opportunity to recognize and repay them. At the same time we desire to give these societies some substantial token of the high estimation in which they are held, and of the warm and active interest which our citizens take in their success. You will greatly oblige us, therefore, Gentlemen, and offer the opportunity we seek, if you will fix upon some evening for a joint Complimentary Concert for the benefit of these sister-societies.

We remain, Gentlemen,
Yours very respectfully.

Excitement in New York.

New York, Feb. 9.

There is considerable excitement in relation to Mrs. Forrest's debut this evening, and a riot is apprehended. A special police force has been detailed at the Theatre, and the 5th regiment of Artillery ordered to hold itself in readiness.

Quite a large crowd has been assembled about the Theatre since 6 o'clock. It is however hoped that the precautions taken will prevent any serious outbreak.

7½ p. m.

The Regiment is now parading in front of the Theatre.

A despatch of the 3rd instant states that the precautions used prevented any outbreak and that the *debut* passed off quietly and successfully.

An Act

Regulating the minimum price of certain School Lands.

The People of the State of Wisconsin, represented in Senate and Assembly, do enact as follows:

SEC. 1. The minimum price of all lands already selected, or hereafter to be selected, as part of the five hundred thousand acres of land donated by Congress to this State, shall be one dollar and twenty-five cents per acre; and none of said lands shall hereafter be sold at a less sum than such minimum price; and this act shall take effect and be in force from and after its passage.

Approved January 31, 1851.

BURNED TO DEATH.—A most afflicting scene occurred at the poor house in this county on Thursday last: a small building occupied by an idiot girl, a few rods from the house, caught fire by some unknown cause about 9 o'clock in the morning. When the fire was discovered it was too late to save the suffering inmate; when her body was taken from the fire one arm and leg was burned off. Her name was Louisa Hungerford, aged 16 years. We understand her father lives in the south part of the Country.—*Hillsdale Standard.*

Letters from Mr. Weed---No. 7.

LOUIS NAPOLEON AT NOTRE DAME.

Paris, Jan. 2, 1852.

The advent of a New Year occasioned opportunity for Louis Napoleon, who availed himself of it, to commemorate his triumphant election by a most splendidly impressive ceremony at the Cathedral of Notre Dame, that memorable edifice having been gorgeously decorated for the occasion.

In going to Notre Dame at half past 10 a. m. we passed thousands of troops, who were being formed on either side of the streets leading from the Palace of the Elysee to the Cathedral, a distance of two miles. All was excitement, but there was no confusion. We reached Notre Dame at 11 o'clock in a long train of carriages. All around national emblems were displayed.—Numerous Battalions of troops guarded every approach to the Cathedral. On entering the Cathedral we were dazzled by the brilliancy of 13,000 sperm candles, placed in over an hundred Glass Chandeliers, Candelabras, &c. &c. This broad glare of light threw its rays upon innumerable Flags, Tapestries, and a gorgeous canopy under which a chair was placed for the "Prince President," this for the present, being his title.—Most of the decorations were the same used at the Coronation of Napoleon in 1804, with an "L" added to his initial of "N."

The Municipal authorities of Paris and the other cities of France, the officers of government, the Judges, the Bar, &c. &c., were already there. It being difficult to obtain Tickets, (lest some one who had lost friends in the massacre should come with an intention of avenging their griefs,) prevented the attendance of citizens and strangers except to a limited extent. There were but few persons, therefore, in the galleries. This gave us a fine view.

A little before twelve, the Archbishop of Paris, with his clergy, in magnificent robes, moved in procession down the broad aisle to the entrance, where they awaited the arrival of Napoleon, whose approach was heralded by the firing of cannon and the pealing of the chimes of the Cathedral. The body of the Church was filled with gens d'armes, who surrounded the President and those who occupied places of honor and distinction.

Napoleon, as he entered the Church, knelt slightly to the Archbishop, from whom he received the sacrament and a benediction. The Holy Fathers then moved slowly back to the Altar, followed by the President, with General St. Arnaud, the Minister of War, on his right, and Gen. Magnan, Commander in Chief of the Army, on his left. Immediately behind the President, was Jerome Bonaparte, Ex-King of Westphalia, Marshal Excelmans, and Gen. De la Kaniere, both soldiers of the Emperor, and latter having lost his right arm in one of his battles. There could not have been less than six or seven hundred officers of the staff and [illegible], all in full dress, in the Church. Napoleon passed in and out of the Church, amid exclamations of "Vive Napoleon," mingled, or rather sprinkled with voices, sounding "Vive l' Empereur!" The President was dressed in the uniform of a General of the National Guard.

The Diplomatic Corps, in full Court Dresses, made an imposing appearance. Lord Normanby, the British Embassador, with a splendid scarlet uniform, was particularly conspicuous. Mr. Rives, the American Minister, represented his Country, as Franklin did, in Republican simplicity of costume.

The Te Deum was highly effective. During the ceremony there was the most profound stillness. The singing was what might have been expected from several hundred of the finest and most highly cultivated voices in Paris.

The ceremony occupied just an hour, and old Parisians speak of it as bearing a striking resemblance, in its decorations, effect, &c., to the Coronation of Napoleon. The President has a youthful appearance, a quick eye and an alert step.—His bearing was graceful. Throughout he was self-possessed, receiving and wearing his honors as complacently as if he had purchased and paid for them. He evidently believes, with his Illustrious Uncle, that his "Star is leading him to Supreme Power." That he possesses great talents, courage and vaulting ambition, is quite certain.

I looked upon this magnificent Pageant with a painful conviction that all that had been gained for Freedom, in France, by the Revolutions of 1830 and of 1848, is lost. The Republican Experiment, in this great Nation, has proved a signal failure. The wave which those Revolutions rolled through Europe, shaking Thrones in its course, will now come back with a crushing recoil.

But Louis Napoleon is not alone to blame for all this; others were laboring, with even more zeal, to bring Republicanism into discredit.—And it is probable that if he had been [illegible] to the Republic, they would have overthrown it and him. Those whom he imprisoned must not all be regarded as victims to Republicanism. And it must be admitted, also, that in this *Coup d'etat* the President has the support of a vast majority of the People of France. The Army of course was against Republicanism. Capitalists lived in constant apprehension. The middling classes began to doubt. Operatives, &c., by whom Republicanism was mainly upheld, imperfectly informed, were liable to [illegible]. Agents were busy, in the name of Republicanism, mingling passions with its principles destructive, ominous, destructive to society. The result of all of which is, that the mind of France is reluctantly returning to its ancient modes of thinking. It therefore acquiesces in, rather than approves of, the change which seems inevitable.

Already "coming events cast their shadows before." The President removes to the Palace of the Tuilleries. Persons are only to be presented, hereafter, in Court Dress. A Functionary is abroad negotiating a marriage with a Princess. By a Decree in the Moniteur this morning, the "Eagles" of the days of the Emperor are restored to the National Standards and to the Cross of the Legion of Honor. The terms "Liberty, Equality, Fraternity," which everywhere greet the eye, upon the walls of Public Edifices, are to be effaced. Indeed, all the Emblems of Free Government will fade out, and with them perish the hopes of Freedom on this side of the Atlantic.

A PRESIDENTIAL SOIREE.—The Washington correspondent of the Baltimore Sun thus notices some of the visitors at one of those evening parties at the President's house, which by a singular misnomer are called "levees:"

"The President's dress levee at the White House last Friday evening comprised a brilliant and distinguished company. The east room was a jam. Catherine Hayes, the Irish Swan, attracted considerable attention. She was superbly dressed in a pink brocade, with a wreath of flowers in her auburn hair. Among the literary stars of feminine lustre, were Mrs. Ann S. Stephens, Grace Greenwood and Mrs. Phelps. In addition to the reception by the President and family in the salle au circle, the Secretaries and other people of note were paying court to Madame Bodisco, the beautiful American wife of the Russian Minister, and to Mrs. Gwin, the elegant and hospitable lady of the distinguished Senator from California.—Daniel Webster, with his great big head and eyes, was here, and so was his accomplished lady, but Hulsemann, our nervous charge, was absent—dreaming, possibly, of his silly complaint about Mr. Webster's speech at the Kossuth dinner.—Hon. Chas. Sumner, the new and very young Senator from Massachusetts, was among the "observed." He is tall and handsome, with polished, winning manners—an exceedingly interesting gentleman every way; and, in the Senate, one of the most eloquent and captivating speakers we have ever heard. His speech on the Kossuth welcome was as splendid in the delivery as it was exquisite in composition. We don't fancy Sumner's free soil connection, though we are disposed to look upon it as a youthful indiscretion, for he has a clear head, warm heart, and a soul as big as the whole world."

STE. MARIE SHIP CANAL.—There are two propositions before Congress to construct the much needed canal around the Sault of State Marie.—In the House, Mr CONGER, of Michigan, formerly a resident of Cleveland, has introduced a bill which appropriates $300,000 in money for the construction of this work. In the Senate, Mr. FELCH, of Michigan, has introduced a bill for the same purpose, which appropriates public lands as the means of constructing the canal. We trust the bill in the House will become a law.

The Cleveland *Herald* publishes the following from Sault Ste. Marie, under the date of January 4th.

The weather here is fine. The steamer Baltimore is fairly hauled out and on her way across the Portage. Yesterday they took hold of the propeller Peninsula. These fine steamers are both the property of Col. McKnight, and will take their place in the Old Lake Superior Line at the opening of navigation the ensuing Spring. We expect the World and "the rest of Mankind" here next summer, and intend to be prepared for them.

OFF FOR CALIFORNIA.—A company started from this place yesterday for California, consisting of John Hall, L. M. Potter, S. Burton, C. M. Travis, N. Daniels, D. Caswell, Frank Fowler and I. Russell. They go via. New Orleans.

A large number of our citizens are making preparations to emigrate to California in the spring, among them are *several families.*—*Hillsdale Standard.*

OHIO STATE HOUSE.—The Sergeants at Arms of both Houses are busy putting their respective Halls in order. New desks will have to be made for the Senate. The Odeon will be a very comfortable Hall, much better than the old hall. Both Houses will probably adjourn to-morrow till Monday.

CHARTER ELECTION.—The reform ticket, headed by Thomson, is elected by eight thousand four hundred majority.

COMMERCIAL.

THE MARKETS.

OFFICE OF THE DAILY SENTINEL,
MILWAUKEE, February 11, 1852.

Increased receipts yesterday. Market quiet and firm at last quotations. Some prime Barley sold at 46 cents. Pork in steady demand at $4@4,25 for prime heavy hogs.

Weather continues very fine. Roads are getting cut up.

Detroit, Feb. 6.—There has been a little excitement in the produce market the past week, and prices have advanced a little. Sales have been made of flour at $3,37@3,40 free on board, and a lot of 500 bbls Detroit City Mills even above this mark. We quote flour from wagons at $3,15@3,18; in store free on board $3,40. Wheat 65c, Corn 40@42c, Oats 25c, Barley $1,25 ℔ 100. Pork, in hog, $4,62½@4,75. Beef, on foot, $4,50@5,50.

Commerce of Buffalo for 1851---Imports.

Wheat, bu	4,260,064
Corn, bu	6,089,236
Flour, bbls	1,201,301
Whiskey, bbls	65,230
Wool, lbs	12,364,902
Lumber, ft	84,068,580
Staves, no	10,690,009

These are some of the leading articles. The value of several of these articles are estimated according to market prices, as follows:

Lumber	$8,406,869
Flour	4,415,053
Wool	3,709,310
Wheat	2,982,011
Total amount of four articles	$19,512,265

If we resolve the amount of flour to its equivalent in wheat, and add to the amount of wheat, corn, and other grains, we realize the enormous amount of 17,272,311 bushels received at this port in a single season of navigation.—The total value of the trade is the respectable sum of $31,857,951. It will strike many as remarkable, that the item of wool, which attracts so little attention in our market, should be third item in value, and larger than wheat. The wool trade here is in its infancy.—[Buffalo Express.

THE FOREST CITY.—The launch of this fine steamer of Capt. Davis & Co., at Trenton, on Tuesday, was entirely successful. She slid off her ways in gallant style, and now sits like a duck on the wave, drawing only three feet water. A welcome addition to our Lake marine.—[Detroit Free Press, Feb. 7.

☞ IN CONSUMPTIVE SYMPTOMS, Procrastination is the thief of time," in an awful sense, as it shortens existence, and hurries the patient from time to eternity.

Thousands are dying whose lives might be saved by the timely use of WISTAR'S BALSAM OF WILD CHERRY. A few weeks, a few days, may make a fatal difference in the progress of CONSUMPTIVE SYMPTOMS.

The chances of success increase greatly with the earliness of treatment. Although in cases, seemingly desperate, Wistar's Balsam has performed cures that are seemingly miraculous, still it is advisable to take the Balsam on the appearance of the first symptoms.

CONSUMPTION, of all diseases, is the one that should receive early treatment. Every hour of delay may make the case more difficult. In the war between Disease and Nature, the sooner we assist Nature, the more certainly will she win the victory. If we wait until Disease has broken the constitution, our aid may come too late for service.

ST. VALENTINE'S DAY.

Ho! for merry Saint Valentine's day,
When the lads and lasses are happy and gay.

AMONG the few Holidays, this has become one of the most prominent; and is celebrated thro'-out this whole country, as it has been for ages past in the Old World. The obligation that all lovers are under, to send some token to the objects of their affection, has caused the preparation and sale of VALENTINES to become a great business of late, and it is every year increasing. In order to supply this increasing demand, we have been making extensive preparations, collecting everything

NEW AND RARE

from all parts of the civilized world, and are able to supply

VALENTINES,

at all prices, and to suit all conditions.

Our Valentines consist of the witty, humorous, affectionate, loving, grave, pathetic, gay, romantic, fanciful, singular, odd, amatory, amusing and sly—for young, middle-aged and even old; for the pert Miss, and the marriageable girl; the coquette and the beau—in fact for ALL.

Washington Feb 1

The rumor of a fraud at the Treasury Department arose from the arrest of an American, on account of an illegal intrigue with Mexico, touching the transactions between the two countries.

New York Feb 2

A man named Jones Levey, has been arrested here by the U S Marshal, charged with maliciously carrying on a correspondence with the Mexican President to the great damage of the U S Government. An indictment was found against him at Washington and he has been taken back there. His offence had reference to meddling with the grant for the Tehuantepec Canal.

On Saturday evening while a keg containing $5000 Mexican dollars was being hoisted on board the packet ship St N[illegible] the keg burst and the contents fell into the dock in 26 feet of water—Unsuccessful efforts have been made to recover the money.

The greater portion of the Hungarians here have found employment and are now earning their living.

The [illegible] Conference of the Methodist Church South met at [illegible] last Thursday.

SENATE.—Mr Stockton of New Jersey made a lengthy speech in support of the Kossuth doctrine of Intervention on occasion of presenting the resolutions of the N J Legislature.

The bill for the relief of the Cuban prisoners, was ordered engrossed—also the Mexican Indemnity bill.

HOUSE.—The House was engaged on private bills.

Japan Expedition—Mr. Giddings—Intervention—Democratic Divisions—Gov. Marcy.

Washington Jan 30

The [illegible] of the uncommon energy displayed at our Navy Yards is that our Government thinks it proper to send a large force to Japan to back up our demands on the Emperor for the return of our seamen and perhaps for the opening of more of his ports to our commerce.

Mr Giddings' speech in favor of intervention, was attentively listened to in the House to-day. The democracy are in some little danger on this point just now—the radical democracy of the north advocating the Kossuth doctrine while the southern wing and conservative portion from the north oppose it. Some of our conservatives are offended at Gov. Marcy's speech in favor of intervention. They think it will greatly prejudice his chances for success as a Presidential candidate.

The free soilers and the secessionists of the democratic party have waged war against the Union Compromise Democracy. We saw strong evidence of this hostility in Mr Venable's denunciation of the Union, the Democratic and Compromise organ. The large majority of the House against giving the Union the Census job is an evidence that there is a rebellious spirit in the democratic ranks.

Whatever doubt may have existed as to the relations between Mr Fillmore and Mr Webster, they are entirely solved, and they are now on better personal terms than ever. Mr Webster is entirely content to remain in office, and Mr Fillmore takes no exception to Mr Webster's being a candidate for the Presidency, though barely consenting to be one himself.—*Cor N Y Times*

REMOVAL.
P. W. BADGLEY,

HAS removed to his New Stores, four doors north from his old stand at Nos. 103 & 105, E. Water-st., where he has on hand a very heavy stock of GROCERIES and would invite those wishing to purchase goods in his line to give his stock an inspection before purchasing.

It has not only been the aim of the subscriber to sell as low as any other similar establishment in the West, but to convince purchasers that he can and will sell as low as Jobbers of Groceries in New York—and why not? The subscriber has been engaged in the Wholesale Grocery Business in New York for six years prior to opening in this market. His experience and facilities enable him to buy from the same parties as Jobbers of New York buy from. He will hold himself in readiness to duplicate any bill merchants purchase in New York—adding necessary expenses.

His stock on hand consists in part as follows:

POWDER AND LAMP OILS.

It is the object of the subscriber to have at all times a stock that will attract the attention of cash purchasers.

The subscriber would tender his thanks for the liberal manner he has been patronized for the last six years and hopes to merit a continuation by strict attention to the interests and wants of his customers. All orders entrusted to him will meet with the same attention as if present.

For references inquire of his old customers, who are numerous and easy to be found.

Another Scientific Wonder!

DR. J. S. HOUGHTON'S
GREAT DYSPEPSIA CURER!

THE TRUE
DIGESTIVE FLUID,
OR
GASTRIC JUICE

PREPARED from Rennet, or the fourth Stomach of the Ox, after directions of Baron Liebig, the great Physiological Chemist, by J S Houghton, M D, Philadelphia, Pa.

This is a truly wonderful remedy for Indigestion, Dyspepsia, Jaundice, Liver Complaint, Constipation, and Debility, Curing after Nature's own method, by Nature's own Agent, the Gastric Juice.

☞ Half a teaspoonful of PEPSIN, infused in water will digest or dissolve, Five Pounds of Roast Beef in about two hours, out of the stomach.

PEPSIN is the chief element, or Great Digestive Principle of the Gastric Juice—the Solvent of the Food, the Purifying, Preserving, and Stimulating Agent of the Stomach and Intestines. It is extracted from the Digestive Stomach of the Ox, thus forming an Artificial Digestive Fluid, precisely like the natural Gastric Juice in its Chemical powers, and furnishing a complete and perfect substitute for it. By the aid of this preparation the pains and evils of Indigestion and Dyspepsia are removed, just as they would be by a healthy Stomach. It is doing wonders for Dyspeptics, curing cases of Debility, Emaciation, Nervous Decline and Dyspeptic Consumption, supposed to be on the verge of the grave. The Scientific Evidence upon which it is based is in the highest degree Curious and Remarkable.

SCIENTIFIC EVIDENCE.

Baron Liebig, in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid, analogous to the Gastric Juice may be readily prepared from the mucous membrane of the stomach of the Calf, in which various articles of food, as meat and eggs will be softened, changed, and digested, just in the same manner as they would be in the human stomach."

Dr Pereira in his famous treatise on "Food and Diet," published by Fowler & Wells, New York, page 35, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr Pereira.

Dr Combe, in his valuable writings on the "Physiology of Digestion," observes that "a diminution of the due quantity of the Gastric Juice is a prominent and all prevailing cause of Dyspepsia;" and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding everything else to fail, had recourse to the Gastric Juice obtained from the stomachs of living animals, which proved completely successful."

Dr Graham, author of the famous works on "Vegetable Diet," says: "It is a remarkable fact in physiology, that the stomachs of animals, macerated in water impart to the fluid the property of dissolving various articles of food, and of effecting a kind of artificial digestion of them in no wise different from the natural digestive process."

Professor Dunglison of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject.—His experiments with Dr Beaumont, on the Gastric Juice, obtained from the living human stomach and from animals are well known. "In all cases," he says, "digestion occurred as perfectly in the artificial as in the natural digestions."

Dr John W. Draper, Professor of Chemistry, in the Medical College of the University of New York, in his Text Book of Chemistry, page 386, says, "It has been a question whether artificial digestion could be performed—but it is now universally admitted that it may be."

Dr Carpenter's standard work on Physiology, which is in the library of every Physician and is used as a Text Book in all the Colleges, is full of evidence similar to the above, respecting the remarkable Digestive power of Pepsin and the fact that it may be readily separated from the stomach of the calf or ox and used for experiments in Artificial Digestion, or as a remedy for disease of the Stomach, and deficient secretion of Gastric Juice.

All modern works on Chemistry, Materia Medica, and Physiology, and all good Medical Dictionaries, describe the character and properties of PEPSIN, and state many interesting details respecting it.

The fact that an Artificial Digestive Fluid or Gastric Juice, perfectly resembling the natural fluid may be readily prepared, does not admit of question. The only wonder is that it has not before been applied to the cure of indigestion and Dyspepsia—so naturally does such a use suggest itself to the mind.

AS A DYSPEPSIA CURER,

Dr HOUGHTON'S PEPSIN has produced the most marvellous effects, in curing cases of Debility, Emaciation, Nervous Decline and Dyspeptic Consumption. It is impossible to give the details of cases in the limits of this advertisement, but authenticated certificates have been given of more than Two Hundred Remarkable Cures, in Philadelphia, New York, and Boston alone. These were nearly all desperate cases, and the cures were not only rapid and wonderful but permanent.

It is a great Nervous Antidote, and particularly useful for tendency to Bilious disorder, Liver complaint, Fever and Ague or badly treated Fever and Ague, and the evil effects of Quinine, Mercury and other drugs upon the Digestive Organs after a long sickness. Also for excess in eating and the too free use of ardent spirits. It almost reconciles Health with Intemperance.

OLD STOMACH COMPLAINTS.

There is no form of Old Stomach Complaints which it does not seem to reach and remove at once. No matter how bad they may be, it gives Instant Relief! A single dose removes all the unpleasant symptoms and it only needs to be repeated for a short time to make these good effects permanent. Purity of Blood and Vigor of Body follow at once. It is particularly excellent in case of Nausea, Vomiting, Cramps, Soreness of the pit of the stomach, distress after eating, low, cold state of the Blood, Heaviness, Lowness of Spirits, Despondency, Emaciation, Weakness, tendency to Insanity, Suicide, &c.

Dr Houghton's PEPSIN is sold by nearly all the dealers in fine drugs and Popular Medicines throughout the United States. It is prepared in Powder and in Fluid form—and in Prescription vials for the use of Physicians.

Private Circulars for the use Physicians may be obtained of Dr Houghton or his Agents, describing the whole process of preparation and giving the authorities upon which the claims of this new remedy are based. As it is no Secret Remedy no objection can be raised against its use by Physicians in respectable standing, and regular practice. Price One Dollar per bottle.

☞ **Observe this.**—Every bottle of the genuine PEPSIN bears the written signature of J. S. HOUGHTON, M. D., sole proprietor, Philadelphia, Pa. Copyright and Trade Mark secured.

☞ Sold by all Druggists and Dealers in Medicine.

WISTAR'S
BALSAM OF WILD CHERRY,
THE BEST REMEDY EVER KNOWN

To MAN, for Coughs, Asthma, Colds, Croup, Bronchitis, Influenza, Bleeding of the Lungs, Difficulty of Breathing, Liver Affections, Pain or Weakness of the Breast or Side, First Stages of Consumption &c.

In short, this Balsam is peculiarly adapted to every disease of the Lungs and Liver, which is produced in our ever varying climate.

WILD CHERRY has long been known to possess important medicinal properties. This fact is familiar to every matron in our land and physicians often prescribe it in different forms for a variety of complaints. Tar, also, has been equally noted for its virtues, and some physicians, whose names are familiar to the whole country, have gone so far as to declare that even CONSUMPTION could be cured by that alone. In other hands, again, it was nearly valueless—owing, no doubt to their ignorance in preparing and administering it—a difficulty now entirely obviated by [illegible] and long experience.

The extraordinary medicinal powers of these two substances are now for the first time combined and embodied in DR WISTAR'S BALSAM OF WILD CHERRY. By a nice chemical process everything deleterious or useless is rejected so that what remains is the most extraordinary and truly efficacious remedy for all kinds of pulmonary and liver diseases ever known to man. To convince all unbelievers that our theory is really true, we refer to a few cases of cures performed by this wonderful medicine.

PLEASANT RIDGE, Hamilton Co., O.,
September 27, 1850

J. D. Park—Dear Sir.—I take the liberty of advising you of the benefit I have derived from the use of Dr Wistar's Balsam of Wild Cherry. I was prostrated by that terrible scourge, Consumption, in May last. The attack was truly horrifying to me, for five of our family, (brothers and sisters) had died of Consumption. I was afflicted with nearly all the worst features of the disease. I had a distressing cough, and expectorated a great deal of blood, hectic fever, severe pains in the side and chest, cold chills, alternating with flushes of heat and copious night sweats.

I was under the care of a skillful physician, from the time I was taken sick until about six weeks since, being then also at his help, and my friends considered my case hopeless, or at least so would our Physician's skill and advised the use of Wistar's Balsam of Wild Cherry. Without my knowledge, my father procured it, and I commenced administering it to me, and from the first day I commenced taking it, my health improved, and in two weeks from the time I commenced using it, I was able to be out and oversee my business, and labor, which I still continue to do. I have taken four bottles of the medicine, and now consider myself perfectly well. JEREMIAH ISCRIGG

Another astonishing Cure!

F. Kalb, a highly respectable merchant of Rushville, Fairfield county, Ohio, sent us the following voluntary tribute to

"DR. WISTAR'S BALSAM OF WILD CHERRY."

Rushville, Fairfield Co, O, April 6, 1851

Mr J D PARK—Dear Sir.—I wish to state to you that my daughter Amanda, aged sixteen years, had, about a year since, a very severe attack of measles, which reduced her very much, and left her with a racking cough. I employed all of the physicians, within our reach for the purpose of removing her cough, but without success. She appeared to be sinking into a decline, with every symptom of consumption.

I then tried Dr "Rogers' Liverwort and Tar." But this aggravated her cough and gave her symptoms of a still more malignant character. I was now most seriously alarmed, and it was with trembling fear that I from day to day, saw the progress of that insatiable disease, consumption. I really despaired of my daughter's recovery. But I providentially saw the certificate of Jonathan Coulson whose daughter, "Sarah Jane," was cured of consumption by Wistar's Balsam of Wild Cherry, this created a faint hope that it might help my daughter, and I immediately commenced using it, and it almost instantly gave relief, her health was improved from the first bottle, and by the use of two bottles of Wistar's Balsam of Wild Cherry, she was restored to perfect health, and she is not at all predisposed to a cough.

I will say to all that are afflicted with any disease tending to consumption *do not despair,* try Dr. Wistar's Balsam of Wild Cherry will cure you, if you will but try it.

F KALB

The genuine Wistar's Balsam of Wild Cherry has a fac simile of the signature of Henry Wistar, M D Philadelphia, and "Sanford & Park" on a finely executed steel engraved wrapper. No other can be genuine.

The rumor of a fraud at the Treasury Department arose from the arrest of an American, on account of an illegal intrigue with Mexico, touching the transactions between the two countries.

New York, Feb 2

A man named Jones Levey has been arrested here by the U S Marshal charged with maliciously carrying on a correspondence with the Mexican President, to the great damage of the U S Government. An indictment was found against him at Washington and he has been taken back there. His offence had reference to meddling with the grant for the Tehuantepec Canal.

On Saturday evening while a keg containing $5000 Mexican dollars was being hoisted on board the packet ship St Nicholas the keg burst and the contents fell into the dock in 26 feet of water—Unsuccessful efforts have been made to recover the money.

The greater portion of the Hungarians here have found employment and are now earning their living.

Japan Expedition—Mr. Giddings—Intervention—Locofoco Divisions—Gov. Marcy.

Washington, Jan 30

The reason for the uncommon energy displayed at our Navy Yards is that our Government thinks it proper to send a large force to Japan, to back up our demands on the Emperor for the return of our seamen and perhaps for the opening of more of his ports to our commerce.

Mr Giddings's speech in favor of intervention, was attentively listened to in the House to-day. The democrats are in some little danger on this point just now—the radical democracy of the north advocating the Kossuth doctrine, while the southern wing and conservative portion from the north oppose it. Some of our conservatives are offended at Gov. Marcy's speech in favor of intervention. They think it will greatly prejudice his chances for success as a Presidential candidate.

The free soilers and the secessionists of the democratic party have waged war against the Union Compromise Democracy. We saw strong evidence of this hostility in Mr Venable's denunciation of the Union, the Democratic and Compromise organ. The large majority of the House against giving the Union the Census job is an evidence that there is a rebellious spirit in the democratic ranks.

Whatever doubt may have existed as to the relations between Mr Fillmore and Mr Webster, they are entirely solved, and they are now on better personal terms than ever. Mr Webster is entirely content to remain in office, and Mr Fillmore takes no exception to Mr Webster's being a candidate for the Presidency, though barely consenting to be one himself.—*Cor. Another Scientific Wonder!

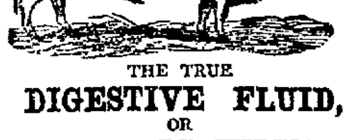
DR. J. S. HOUGHTON'S

GREAT DYSPEPSIA CURER!



THE TRUE

DIGESTIVE FLUID,

OR

GASTRIC JUICE

PREPARED from Rennet, or the fourth Stomach of the Ox, after directions of Baron Liebig, the great Physiological Chemist, by J S Houghton, M D, Philadelphia, Pa.

This is a truly wonderful remedy for Indigestion, Dyspepsia, Jaundice, Liver Complaint, Constipation, and Debility, Curing after Nature's own method, by Nature's own Agent, the Gastric Juice.

☞ Half a teaspoonful of Pepsin, infused in water will digest or dissolve, Five Pounds of Roast Beef in about two hours, out of the stomach.

Pepsin is the chief element, or Great Digestive Principle of the Gastric Juice—the Solvent of the Food, the Purifying, Preserving, and Stimulating Agent of the Stomach and Intestines. It is extracted from the Digestive Stomach of the Ox, thus forming an Artificial Digestive Fluid precisely like the natural Gastric Juice in its Chemical powers, and furnishing a complete and perfect substitute for it. By the aid of this preparation the pains and evils of Indigestion and Dyspepsia are removed, just as they would be by a healthy Stomach. It is doing wonders for Dyspeptics, curing cases of Debility, Emaciation, Nervous Decline and Dyspeptic Consumption, supposed to be on the verge of the grave. The Scientific Evidence upon which it is based, is in the highest degree Curious and Remarkable.

SCIENTIFIC EVIDENCE.

Baron Liebig in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid, analogous to the Gastric Juice may be readily prepared from the mucous membrane of the stomach of the Calf, in which various articles of food, as meat and eggs, will be softened, changed, and digested, just in the same manner as they would be in the human stomach."

Dr Pereira, in his famous treatise on "Food and Diet," published by Fowler & Wells, New York, page 35, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr Pereira.

Dr Combe, in his valuable writings on the "Physiology of Digestion," observes that "a diminution of the due quantity of the Gastric Juice is a prominent and all prevailing cause of Dyspepsia;" and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding everything else to fail, had recourse to the Gastric Juice, obtained from the stomachs of living animals, which proved completely successful."

Dr Graham, author of the famous works on "Vegetable Diet," says: "It is a remarkable fact in physiology, that the stomachs of animals, macerated in water, impart to the fluid the property of dissolving various articles of food, and of effecting a kind of artificial digestion of them in no wise different from the natural digestive process."

Professor Dunglison of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject—His experiments with Dr Beaumont, on the Gastric Juice, obtained from the living human stomach and from animals are well known. "In all cases," he says, "digestion occurred as perfectly in the artificial as in the natural digestions."

Dr John W Draper, Professor of Chemistry, in the Medical College of the University of New York, in his Text Book of Chemistry, page 386, says, "It has been a question whether artificial digestion could be performed—but it is now universally admitted that it may be."

Dr Carpenter's standard work on Physiology, which is in the library of every Physician and is used as a Text-Book in all the Colleges, is full of evidence similar to the above, respecting the remarkable Digestive power of Pepsin and the fact that it may be readily separated from the stomach of the calf or ox, and used for experiments in Artificial Digestion, or as a remedy for disease of the Stomach, and deficient secretion of Gastric Juice.

All modern works on Chemistry, Materia Medica, and Physiology, and all good Medical Dictionaries, describe the character and properties of Pepsin, and state many interesting details respecting it.

The fact that an Artificial Digestive Fluid or Gastric Juice, perfectly resembling the natural fluid may be readily prepared, does not admit of question. The only wonder is that it has not before been applied to the cure of indigestion and Dyspepsia—so naturally does such a use suggest itself to the mind.

AS A DYSPEPSIA CURER.

Dr HOUGHTON'S PEPSIN has produced the most marvellous effects, in curing cases of Debility, Emaciation, Nervous Decline and Dyspeptic Consumption. It is impossible to give the details of cases in the limits of this advertisement, but authenticated certificates have been given of more than Two Hundred Remarkable Cures, in Philadelphia, New York, and Boston alone. These were nearly all desperate cases, and the cures were not only rapid and wonderful but permanent.

It is a great Nervous Antidote, and particularly useful for tendency to Bilious disorder, Liver complaint, Fever and Ague, or badly treated Fever and Ague, and the evil effects of Quinine, Mercury and other drugs upon the Digestive Organs after a long sickness. Also for excess in eating and the too free use of ardent spirits. It almost reconciles Health with Intemperance.

OLD STOMACH COMPLAINTS.

There is no form of Old Stomach Complaints which it does not seem to reach and remove at once. No matter how bad they may be, it gives Instant Relief! A single dose removes all the unpleasant symptoms, and it only needs to be repeated for a short time to make these good effects permanent. Purity of Blood and Vigor of Body follow at once. It is particularly excellent in case of Nausea, Vomiting, Cramps, Soreness of the pit of the stomach, distress after eating, low, cold state of the Blood, Heaviness, Lowness of Spirits, Despondency, Emaciation, Weakness, tendency to Insanity, Suicide, &c.

Dr Houghton's Pepsin is sold by nearly all the dealers in fine drugs and Popular Medicines, throughout the United States. It is prepared in Powder and in Fluid form—and in Prescription vials for the use of Physicians.

Private Circulars for the use of Physicians, may be obtained of Dr Houghton or his Agents, describing the whole process of preparation and giving the authorities upon which the claims of this new remedy are based. As it is not a Secret Remedy no objection can be raised against its use by Physicians in respectable standing and regular practice. Price One Dollar per bottle.

☞ Observe this.—Every bottle of the genuine Pepsin bears the written signature of J. S. HOUGHTON, M. D., sole proprietor, Philadelphia, Pa. Copyright and Trade Mark secured.

☞ Sold by all Druggists and Dealers in Medicine.

WISTAR'S

BALSAM OF WILD CHERRY,

THE BEST REMEDY EVER KNOWN

TO MAN, for Coughs, Asthma, Colds, Croup, Bronchitis, Influenza, Bleeding of the Lungs, Difficulty of Breathing, Liver Affections, Pain or Weakness of the Breast or Side, First Stages of Consumption, &c.

In short, this Balsam is peculiarly adapted to every disease of the Lungs and Liver, which is produced in our ever-varying climate.

WILD CHERRY has long been known to possess important medicinal properties. This fact is familiar to every matron in our land, and physicians often prescribe it in different forms for a variety of complaints. Tar, also, has been equally noted for its virtues, and some physicians, whose names are familiar to the whole country, have gone so far as to declare that even CONSUMPTION could be cured by that alone. In other hands, again, it was nearly valueless—owing, no doubt, to their ignorance in preparing, and administering it—a difficulty now entirely obviated by patient experiment and long experience.

The extraordinary medicinal powers of these two substances are now for the first time combined and embodied in DR WISTAR'S BALSAM OF WILD CHERRY. By a nice chemical process, everything deleterious or useless is rejected, so that what remains is the most extraordinary and truly efficacious remedy for all kinds of pulmonary and liver diseases ever known to man. To convince all unbelievers that our theory is really true, we refer to a few cases of cures performed by this wonderful medicine.

PLEASANT RIDGE, Hamilton Co, O, }
September 27, 1850 }

J. D. Park—Dear Sir:—I take the liberty of advising you of the benefit I have derived from the use of Dr. Wistar's Balsam of Wild Cherry. I was prostrated by that terrible scourge, Consumption in May last. The attack was truly horrifying to me, for five of our family, (brothers and sisters) had died of Consumption. I was afflicted with nearly all the worst features of the disease. I had a distressing cough, and expectorated a great deal of blood, hectic fever, severe pains in the side and chest, cold chills, alternating with flushes of heat and copious night sweats.

I was under the care of a skillful physician from the time I was taken sick until about six weeks since, being then about helpless, and my friends considered my case hopeless, or at least beyond our Physician's skill and advised the use of Wistar's Balsam of Wild Cherry. Without my knowledge my father procured it, and commenced administering it to me, and from the first day I commence taking it, my health improved and in two weeks from the time I commenced using it, I was able to be out and oversee my business, and labor, which I still continue to do. I have taken four bottles of the medicine, and now consider myself perfectly well. JEREMIAH ISCRIGG

Another astonishing Cure!

F. Kalb, a highly respectable merchant of Rushville, Fairfield county, Ohio, sent us the following voluntary tribute to

"DR WISTAR'S BALSAM OF WILD CHERRY"

Rushville, Fairfield Co, O, April 6, 1851

Mr J. D. PARK—Dear Sir:—I wish to state to you that my daughter, Amanda, aged sixteen years, had, about a year since, a very severe attack of measles, which reduced her very much, and left her with a racking cough. I employed all of the physicians, within our reach for the purpose of removing her cough, but without success. She appeared to be sinking into a decline, with every symptom of consumption.

I then tried Dr. "Rogers' Liverwort and Tar." But this aggravated her cough and gave her symptoms of a still more malignant character. I was now most seriously alarmed, and it was with trembling fear that I from day to day, saw the progress of that insatiable disease, consumption. I really despaired of my daughter's recovery. But I providentially saw the certificate of Jonathan Coulson, whose daughter, "Sarah Jane," was cured of consumption by Wistar's Balsam of Wild Cherry, this created in faint hope that it might help my daughter, and I immediately commenced using it, and it almost instantly gave relief, her health was improved from the first bottle, and by the use of two bottles of "Wistar's Balsam of Wild Cherry, she was restored to perfect health, and she is not at all predisposed to a cough.

I will say to all that are afflicted with any disease tending to consumption, *do not despair*, for Dr. Wistar's Balsam of Wild Cherry will cure you, if you will but try it.

F KALB

The genuine Wistar's Balsam of Wild Cherry has a fac simile of the signature of Henry Wistar, M D Philadelphia, and "Sanford & Park" on a finely executed steel engraved wrapper. No other can be genuine.

THE subscribers, thankful for past favors, beg leave to announce that they have recently added the Foundry business to their former occupation of Mill Stone manufacturing, and are now prepared to supply the public with articles in either branch on terms that will defy competition.

In offering our Stoves to the community, we do so with the full assurance that we can supply better articles than can be purchased at any other place, being entirely new patterns, manufactured with care and from the very best materials. The following list of patterns is offered with the confidence that they will give satisfaction in every particular, viz:

THE ECONOMIST
DOUBLE OVEN COOKING STOVE,
(*Which received the First Premium at the State Fair, lately held at Janesville,*)
Possesses great advantages over every other stove, for plain dues and direct application of heat, being so arranged that one or both ovens can be used at pleasure. It will cook in half the time of any other stove now in use, and with half the fuel, not consuming over four cords of wood in one year.

The TRIUMPH, single oven, takes in long wood. Is an excellent stove—one that has been well tested, and given general satisfaction.

The PREMIUM is different in its construction from any other made, in the arrangement of the fire back—acknowledged to be a great improvement.

The JUNO PARLOR is adapted to either wood or coal, being decidedly the neatest arrangement ever offered to the public, having all the convenience of the stove combined with the beauties of the open grate. It is beautifully ornamental, highly finished, and perfect in every respect—the entire front above and below the grate being opened or closed with three doors, and so arranged that when open they are completely out of sight. It is equally adapted to offices as well as parlors.

The RADIATOR is the best coal stove ever got up as a retainer of heat.

Persons purchasing their stoves of us, in the event of any of the plates getting broke, can at all times be supplied with extra ones, thus superceding the necessity of throwing away stoves, which many are daily compelled to do in buying Eastern ware.

Those who are in want of an articles in our line, will find it to their advantage to give us a call, before purchasing elsewhere, as we are confident that we can give satisfaction in all cases. City references given, where our stoves can be seen in operation. Stoves delivered and set up in any part of the city, free of charge. All orders promptly attended to.

Troy Fire Insurance Company,
TROY, WALWORTH COUNTY, WIS.
CAPITAL $100,000.

The Directors feel grateful to the public for having thus early manifested their approval of and confidence in this Company. After having been in operation ten months, we are able to report as follows:

Whole number of Policies issued,............	560
Whole amount of Property insured,..	$625,651 00
Whole amount of Cash premium,.........	5211 37
Whole amount of losses allowed and paid,	371 27
Balance of Cash Premium on hand,.......	4843 10

IT is gratifying to the Directors to state to the members of this Company, that the business has more than met their expectations, and is rapidly increasing. This unparalleled success in the commencement, and increase of business, show that our plan and management meets with the approval of the public.

The Charter and Bye-Laws are free from objections, and provide that the risks shall be divided into two distinct departments, and the premium notes in one shall not be liable for losses in the other. The only risks taken in the Farmer's Department are on farm property, detached dwellings, country churches, school houses, tailors' shoemakers', and saddlers' shops. No hazardous risks will be taken in either department, nor more than $2000 in one risk, or in a circle of eight rods.

The company possess both the advantages of the Stock and Mutual plan. Any person insuring may pay once and one-half the regular cash premium in full, without a premium note. Stoves may be added or changed, out-buildings erected, if fifty feet from dwelling, and such additions and repairs made as do not increase the hazard, without notifying the company. The Company will be responsible for the correctness of surveys taken by their Agents. Insurance may take effect on the day the application is made. The Company pays, in case fire, the full amount of damage not exceeding the amount insured, and all matters of difference may be settled by arbitration in the county where the loss occurs.

The rates charged by this company, though low, are based upon the actual results of insuring for the past twenty years, and are found to be sufficient, with prudent management, to pay all losses and expenses without ever resorting to the premium notes: thus the rates on exposed dwellings and farm property, are a premium net of one per cent, and a cash premium of fifty cents on each $100 for five years.

In publishing our safe, cheap, and popular plan of Insurance, we deem it a duty to ourselves and the public to state a few existing facts with the Washington and Montgomery:—

The Washington County Mutual commenced in 1836, by collecting thirty cents on $100; in 1848 they first discovered that this was insufficient to pay losses, and raised to 33 cents, and now are collecting 50 cents on each $100; the result of which is, by their report, Jan. 1, 1850, $[illegible] in the treasury, and 65 million at risk, on which they will probably lose two hundred thousand, making their actual debt 191 thousand.

The Montgomery County Mutual is another example of bad management. They have been in operation a little longer than the Washington, and their report shows what the Washington is fast coming to. They reported to the Comptroller, Jan. 1, 1850, that their losses and cash expenses had exceeded their cash receipts twenty-nine thousand dollars, and fifteen thousand dollars claims unsettled, making debts and claims forty-four thousand dollars, and some thirty millions at risk, on which they will probably lose ninety thousand dollars more, making their actual debt one hundred and thirty-four thousand dollars.

The cash premiums now collected by these two companies on what they insure in future will only pay losses on the same, consequently those insuring with them now not only pay for their insurance, but assume a portion of these enormous debts, which must be raised by tax. These companies are unpopular in New York, and are compelled to wander in the Valley of the Mississippi where they are not so well known for business. Arch Bishop and Lester Wilcox may publish, as heretofore, their firm belief that no *tax* will ever be necessary, but the figures are the things to judge from.

Since the above reports, the Montgomery have [illegible] a tax on their premium notes.

Now we would ask the public candidly, which of these three companies it is to their interest to insure in: the Washington, and assume a debt of $191,000, the Montgomery, and assume a debt of $134,000, or of the Troy, with an increasing cash fund sufficient to pay all losses and expenses without ever resorting to a tax?

DIRECTORS,
Adam E. Ray, Elias Hibbard,
Sherman M. Rockwood, Stephen G. West,
Hiram Medbery, Aaron Smith,
Eber W. Young.

STATE FAIR.
CRANE'S PATENT SOAP took the FIRST PREMIUM at the STATE FAIR at Janesville; also at the State Fair of the State of New York, and at the Great Fair of the AMERICAN INSTITUTE. OF COURSE IT DID, because it is the BEST SOAP IN USE. If any are still skeptical, let them read the following—the names to which might be indefinitely extended—and then try it for themselves, and if it don't succeed, they don't follow the directions:—

"We have used CRANE'S PATENT SOAP in our families for the past eight months, and pronounce it FULLY EQUAL to its recommendations. We do not discover that it injures clothing in the least. It is the cheapest soap in use. We should not willingly do without it.

PATENT MEDICINES,

Dr. Trasks Magnetic Ointment,
CAN now be obtained in this city of S. JOHNSON, Jr., and H. Bosworth & Sons, and of one or more Druggists or Merchants in most of the cities or villages of the West. The great and increasing popularity of this remedy is mainly attributable to its controlling power over acute inflammation and nervous irritation. From the best of evidence in our possession, from Physicians, of the best standing, who have prescribed it, and from others who have been healed by it, we are satisfied that it will cure in some cases where no other known remedy will do it. This it has appeared to do in numerous cases of Chronic Sore Eyes and partial blindness, where the most eminent medical treatment had failed. For inflammatory Rheumatism Burns, Freezes, Ulcerated sores, Scald head, or for relief from a sudden stoppage of the pores of the skin by colds or fevers, a thorough trial will establish its claims to the confidence of the public. Our agents are supplied with circulars containing interesting details of its happy effects in many extreme cases.

☞ The attention of Physicians is respectfully called to a rigid scrutiny of the merits of this article.

VEGETABLE PAIN KILLER.

Opinion of the most prominent Druggists and Merchants of Cincinnati in its favor.

CINCINNATI, Oct. 26, 1849.
We the undersigned, Druggists and Merchants of this city, have been acquainted with and sold for 2 or 3 years past, an article of Family Medicine, known as PERRY DAVIS' VEGETABLE PAIN KILLER, and we would assure the public that in every instance, so far as we know, it has given the best satisfaction to the purchaser. We can recommend it to the public as an article of **Great Merit and Virtue**: indeed, we never knew an article of Medicine become so deservedly popular in so short a time, which is proved by the fact of its extensive sale, and constantly increasing demand.

☞ The Pain Killer has been eminently successful in the following disorders: Fever and Ague; Pain in the Head; Rheumatic Affections; Complaints of the Kidneys; Bruises, Sores, and severe Burns; sudden Colds and Coughs; Skin Diseases of every kind; Affections of the Bowels; Liver Complaint; Weak Stomach; General Debility; Dyspepsia; Piles; Boils; Ringworms; Diarrhœa; Dysentery; Cholera Morbus and Asiatic Cholera, and many other diseases.

A Word of Caution to the Public!
Dealers in Pain Killer are cautioned against buying or selling a spurious article of Pain Killer, manufactured by White & Co, of Buffalo, which is a worthless imitation and the pamphlets a "BASE FORGERY" which will appear by comparing them with the Genuine. "The certificates are copied verbatim." The proprietor of the Genuine Perry Davis' Pain Killer will prosecute any person, engaged in selling this spurious article, and is determined to protect himself and the public from this "infamous fraud." Many unprincipled persons, to deceive the public, and for the sake of gain, have applied the name Pain Killer or something similar to their own compounds such as Pain Destroyer, Pain Killing Compound, a real Pain Killer, &c. &c. all of which have been got up on the reputation of Perry Davis' Pain Killer. Is the warning given of the presence of disease, and the disarrangement of the nervous and muscular system. In order to cure disease and rid the system entirely of its cause, our first great desideratum is to stop the pain—strengthen the nervous energy—invigorate healthy action—the functions and secretions of every organ in the system; this we accomplish by the marvellous strengthening, cleansing, invigorating and powerful pain-soothing properties of Radway's Ready Relief. No matter what the cause of pain be—if it arises from nervous prostration, muscular debility, disarrangement of the functions of the liver or secretions of the skin, whether it be rheumatism, neuralgia, sick or nervous headache, nervous irritability, spasmodic affections, cramps, diarrhoea, bowel complaints, chills and fever, whether it originates from internal derangements or external injuries—Radway's Ready Relief, taken internally and applied externally, will speedily and effectually stop the pain and cure its cause.

DR. HOOFLAND'S CELEBRATED GERMAN
BITTERS.
Prepared by Doct. C. M. Jackson,
AT THE GERMAN MEDICINE STORE,
120 Arch-st., Philadelphia.

Their power over the above diseases is not excelled, if equalled, by any other preparation in the United States, as the cures attest, in many cases after skillful physicians had failed.

These Bitters are worthy the attention of invalids. Possessing great virtues in the rectification of diseases of the Liver and lesser glands, exercising the most searching powers in weakness and affections of the digestive organs, they are withal safe, certain and pleasant.

READ AND BE CONVINCED.
[From the Boston Bee.]
The Editor said, Dec. 2d: "Dr. Hoofland's celebrated German Bitters, for the cure of Liver Complaint, Jaundice, Dyspepsia, Chronic or Nervous Debility, is deservedly one of the most popular medicines of the day. These Bitters have been used by thousands, and a friend at our elbow says he has himself received an effectual and permanent cure of Liver Complaint from the use of this remedy. We are convinced that, in the use of these Bitters, the patient constantly gains strength and vigor, a fact worthy of great consideration. They are pleasant in taste and smell, and can be used by persons with the most delicate stomachs with safety, under any circumstances. We are speaking from experience, and to the afflicted we advise their use."

SCOTT'S WEEKLY.
One of the best literary papers published, said, August 25.
"DR. HOOFLAND'S GERMAN BITTERS, manufactured by Dr Jackson, are now recommended by some of the most prominent members of the faculty, as an article of much efficacy in cases of female weakness. As such is the case, we would advise all mothers to obtain a bottle, and thus save themselves much sickness. Persons of debilitated constitution will find these Bitters advantageous to health, as we know from experience the salutary effect they have upon weak systems."

The Daily Sun says:—"It is one of the best medicines of the age for Jaundice and Liver Complaint."

Neal's Gazette says:—"Dr. Hoofland's German Bitters we know to be an excellent article, fulfilling in every respect what is claimed for it by the advertiser."

The Evening Bulletin says:—"The celebrated German Bitters are said to be an invaluable remedy for Jaundice, Dyspepsia, and Nervous Complaints."

The Daily News, July 24, says:—"A Medicine—We speak knowingly of Dr. Hofland's celebrated German Bitters, when we say it is a blessing of this age, and in diseases of the billary, digestive and nervous systems, it has not, we think, an equal. It is a vegetable preparation, and made without alcohol, and to all invalids we should recommend it as worthy of their confidence."

The Dispatch says:—"As a medicine for Liver Complaint, Jaundice, Nervous Debility, and Dyspepsia, it has been found invaluable, effecting cures, and thoroughly eradicating disease, when all other medicines have failed."

That this medicine will cure Liver Complaint and Dyspepsia, no one can doubt, after using it as directed. It acts specifically upon the stomach and liver—it is preferable to calomel in all billious diseases—the effect is immediate. They can be administered to Females or Infants with safety and reliable benefit, at any time.

LOOK WELL TO THE MARKS OF THE GENUINE.
They have the written signature of C. M. JACKSON upon the wrapper, and the name blown in the bottle, without which they are spurious.

GREAT DISCOVERY.
JOHNSON'S CHEMICAL
HAIR INVIGORATOR,
To Prevent Baldness, and to Restore the Hair that has fallen off or become thin, and to cure effectually
SCURF OR DANDRUFF.
Prepared only by S. JOHNSON, 151 E. Water-st.
FOR THE TOILET,

THE INVIGORATOR is considered infinitely better than oil or grease for the hair, and is an article in which a cleansing and purifying wash is beautifully blended with a most delicate, silky and glossy moisture for the hair, never before attained, yet free from animal grease or essential oils. It clears the pores of the skin, causes a healthy action of the blood vessels, nerves, &c., which free the hair, thereby preventing baldness and gray hair, entirely frees the skin from scurf, dandruff, and other cutaneous diseases, disposes the hair to curl, and keeps it so; will positively change the harshest hair into the most soft, healthy, glossy state, also imparts to it a darker color, and the free use of it will keep both the skin and hair in a healthy and luxuriant state until the lastest period of life.

Ladies will find the Invigorator a great addition to the toilet, both on account of its delicate and agreeable perfume, and the great facilities it affords in dressing the hair, which, when moist with the Invigorator, can be dressed in any required form, so as to preserve its place, whether plain or in curls. When used on children's heads, it lays the foundation for a good head of hair. —Nov 24 2m

We would respectfully call the attention of our many friends, and the public generally, to an instrument we have recently imported from Paris, called a

"Conformateur,"
from which the above cut was taken. By it we can take the exact shape, and unerringly *fit* the most irregular heads. Many can testify to the inconvenience, and annoyance, and actual pain they are subjected to, in breaking in Hats that will not fit them. By this ingenious contrivance, this very great annoyance is done away; as the Hats are made to fit perfectly the first time.

Another great advantage is, by keeping a copy of the impression, we can at all times fit our customers from all parts of the country.

We invite all who desire a perfect fit in a Hat, to call and leave an impression of their head; and all those who take pleasure in witnessing the inventions of the ingenious, to call and see the operations of this curious instrument.

Having adopted the CASH SYSTEM (which all will readily acknowledge to be the best,) we are enabled to sell the best Silk Hat made, at the extreme low price of $4.25; surpassing any $5 Hat sold in this city. Our Hats are all manufactured by ourselves, and in offering them to our customers, we do so, with the confident assurance, they are all we recommend them to be. We invite all who do not wish to pay two profits upon a Hat, and are willing to save 25 per cent, to call and see us.
